

Subject: CFE 410 and 420 Service Breaker Kit
Date: 09/12/22
Region: U.S. and Canada
Model Effected: CFE 410 and 420 Model Fryers

Summary

208/240v Shunt breakers are no longer available for CFE 410 and CFE 420 model fryers. A new kit P/N 140771 with instructions has been created, to use for replacement of both a shunt trip circuit breaker, or a standard circuit breaker, for UL 208/240V 60A, CFE 410 or CFE 420 open fryers.

Procedure

Use kit instructions FM08-889 with CFE 410 and 420 Service Breaker Kit 140771. The instructions provide:

- How to identify a Shunt Breaker
- Additional Shunt Breaker replacement steps
- Standard circuit breaker replacement procedures
- Torque specifications
- Wiring diagram for both shunt trip circuit breaker and a standard circuit breaker

Part Numbers

Order the following stock.

Model	Part #	Description	Stocking Level	Quantity
CFE 410 / 420	140771	Service Breaker Kit	B	As Req.

Warranty

The kit includes a 90-day parts warranty from the date of install.
