

**Subject:** Gen. 3 to Gen. 4 Selector Valve Motor Migration

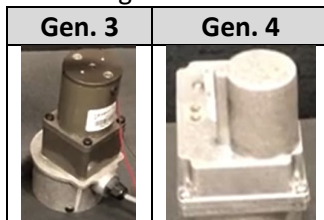

**Date:** 01/17/23

**Region:** Global

**Model Affected:** Evolution Elite Gas (EEG) fryers

### Summary

As part of Henny Penny's continuous improvement efforts, we are migrating away from Gen. 3, and to Gen. 4 selector valve motors on all **NEW** Evolution Elite Gas (EEG) fryers, starting October 2022. Additionally, the new Gen. 4 selector valve motor should be used as a serviceable part for all existing Gen. 3 and 4 selector valve motors on EEG fryers.

### Training

Watch the video overview of features and installation procedures below before performing replacement procedures.
